

Bulk Bag Fill Station

Engineered for rugged performance, it delivers reliable loading of bulk materials in even the most demanding environments.

Features & Benefits

- Heavy Duty Mild Steel Construction
- Fast acting air controls
- Quick Vertical / Horizontal Adjustment for Various Bag Sizes
- High Level Probe

Specifications

- Controls: 24 VDC / 120 VAC
- Compressed Air: Clean & Dry at 100 PSIG
- Air Process Connection: ¼" FNPT

Options

- Stainless Steel Construction for corrosive or sanitary environments
- Hazardous Location Components for compliance in classified areas
- High Temperature Design for heat-sensitive applications
- Custom Frame Heights to suit facility layout
- Weigh Scale System
- Inflatable Fill Spout – Dust Tight Bag Filling
- Densification Base – Improving Bag Filling Accuracy & Bag Handling
