

## Up & In

### SMALL PNEUMATIC CONVEYING RECEIVER

Compact receiver designed for efficient pneumatic transfer of powders and granules. Built for durability,

#### Features & Benefits

- Compact Design for Tight Spaces
- Durable Construction
- Suitable for food, chemical, and industrial use

#### Specifications

- Mild Steel or Stainless-Steel Construction
- Filter Type: Pleated Cartridge
- Filter Cleaning: Reverse Pulse Jet
- Compressed Air: Clean & Dry at 100 PSIG
- Air Process Connection: 1/4" FNPT
- Controls Voltage: 24 VDC
- Fan Voltage: 480 VAC, 3 Phase

#### Options

- 120 VAC Control & Fan Voltage
- Hazardous Location Components for compliance in classified areas
- High Temperature Design for heat-sensitive applications
- Custom Inlets & Outlets to suit facility layout
