

7-Way Hose Switch

Heavy-duty, pneumatically actuated routing solution with a flexible hose design. Built for demanding bulk material handling, it delivers exceptional durability and a virtually leak-proof seal to optimize your process flow.

Features & Benefits

- **Rack and Pinion Drive:** Ensures rapid, highly precise hose indexing across all port locations. between all locations
- **Dust-Tight Sealing:** Dual hose cylinders and advanced seals eliminate fugitive dust and material leakage.
- **Drop-In Ready:** Ships fully assembled and factory-tested for immediate installation.
- **Extreme Durability:** Equipped with heavy-duty, abrasion-resistant material handling hose to maximize service life.
- **Maintenance-Friendly Design:** Engineered for highly accessible, rapid replacement of high-wear components.
- **Fail-Safe Alignment:** Integrates rotary encoders and proximity sensors to guarantee exact port alignment.
- **Streamlined Integration:** Features a pre-wired enclosure for simplified PLC connection and closed-loop position feedback.

Specifications

- Controls: 24 VDC / 120 VAC
- Compressed air: Clean & dry at 80 PSIG min
- Design Pressure: 100 PSIG, works with both dense and dilute phase systems

Options

- Ceramic Lined Material Handling Hose for Abrasive Materials.
- Customized Convey Line Spacing
- High Temperature Design
- Explosion Proof Design (Class I/II, Div I/II)
